25X1 13. [redacted] - JMM) Met with Phil Trimble, on the staff of Senator Muskie's Subcommittee on Arms Control, International Law and Organization of Senate Foreign Relations Committee, and Maynard Toll, of Senator Muskie's personal staff, and explained the Director's reluctance to testify before the Subcommittee on Soviet and Chinese strategic weapons. I said there had been no significant new developments since the Director's 29 March testimony other than the new silos and evidence as to the significance of these was still inconclusive. Trimble said he would like to see the transcript of the 29 March testimony and I said I would send it over for Art Kuhl, of the Committee staff, to hold for Trimble's examination. Trimble also asked if they could get something in writing which would supplement the transcript by confirming my oral statement about the status of information on the new silos. I said I would take this up with the Director and let him know.

25X1 14. [redacted] - JMM) Dorothy Fosdick, Staff Director, Subcommittee on National Security and International Operations, called to say Senator Jackson was interested in the status of the Radios. I explained the situation to her and she indicated the Senator would be glad to help us in any way possible.

Miss Fosdick also provided me with details of some mysterious phone calls that her office had been receiving and I passed this information on to SB Division.

25X1 15. [redacted] - JMM) Talked with Art Kuhl, Senate Foreign Relations Committee staff, and discussed the status of Phil Trimble's clearances and found that a Top Secret clearance had been approved by DOD but had not been formally communicated to the Committee. Kuhl will let us know when it has been.

25X1 16. [redacted] JMM) Talked to Jim Lowenstein, Senate Foreign Relations Committee staff, and asked when we could see a copy of his report on Laos. He said this had been the subject of discussion at the secret session on 7 June where it had been decided not to release the report to anyone until all members of the Senate had had an opportunity to examine and comment on it.
